Trevor's Personal Portfolio Website

Description

This website is designed to help me to look more professional as well as to showcase my past work that I have done.

Navigation Bar

This is the primary method of navigating the website. Clicking on the text or the box surrounding it will bring you to the corresponding webpage. The box that is highlighted shows the current page you're on.

Colors & Typography

	#000000 - Used for header, footer, and aside background.
	#3E94D1 - Used for the navigation bar
	#03406A - Used on the navigation bar to show the current page
	#014D57 - Used as the background color of the website
	#599100- Used for hovering effects
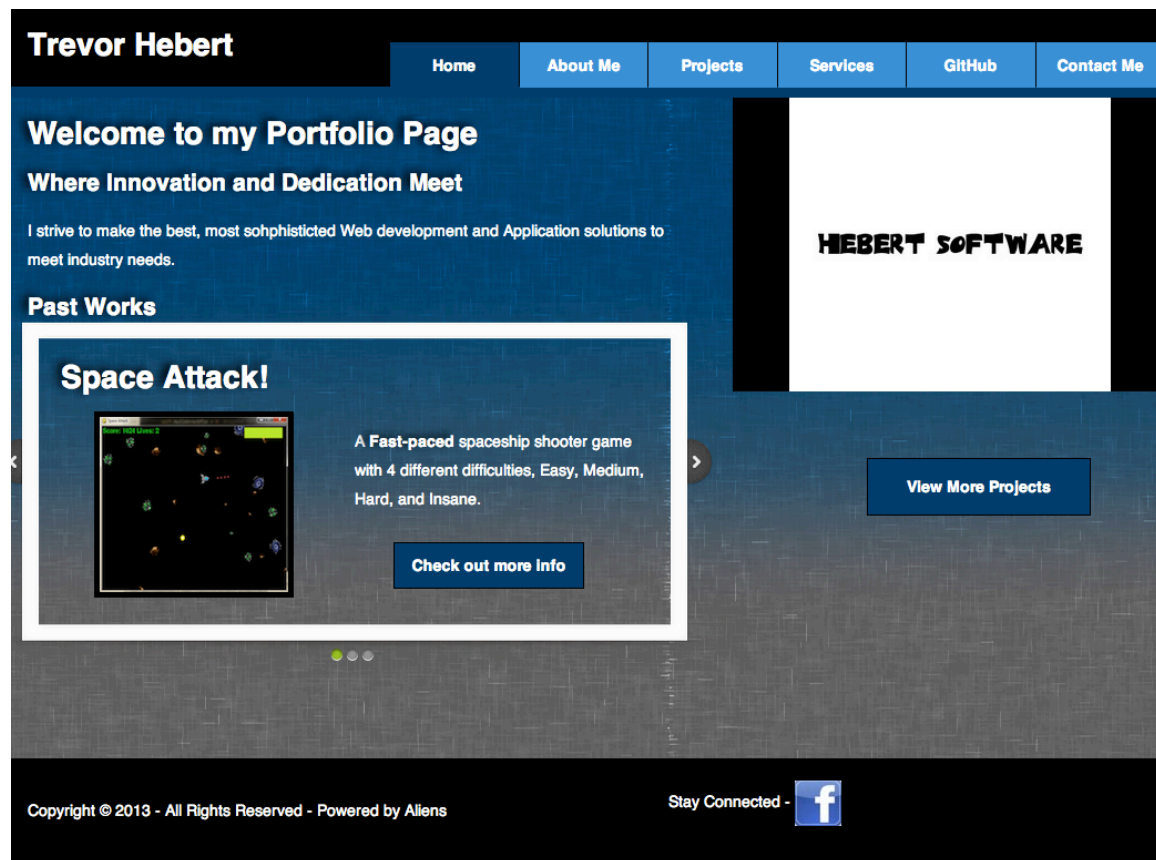

All fonts are Helvetica and are differently sized. All text is white.

Wireframes & Branding

Trevor Hebert

About Me

I am a student at Georgian College enrolled in my third year of the Computer Programmer Analyst course. I have been using computers ever since I can remember and have starting doing programming in 2009.

Dedicated and Hardworking

To develop top notch programs you must take a dedicated approach and put in the necessary time and effort to create masterpieces. I will work around the clock to create what you need.
